

Circle the unit that fits each one.
All five units are there every time.

1

whole school assembly

hours days weeks months years

2

school camp

hours days weeks months years

3

a whole school term

hours days weeks months years

4

one birthday to the next

hours days weeks months years

5

growing a bean plant

hours days weeks months years

6

a night's sleep

hours days weeks months years

**Put the units in order from shortest to longest.
Write 1, 2, 3, 4 and 5 under the cards.**

weeks	years	hours	months	days
-------	-------	-------	--------	------

_____	_____	_____	_____	_____
-------	-------	-------	-------	-------

One of these six is not a unit of time. Put a cross on it.

months	metres	days	years	hours	weeks
--------	--------	------	-------	-------	-------

Circle what that one measures.

how long an object is

how long an event lasts

how heavy an object is

Write how many days there are in one week.

One day is 24 hours, breakfast to breakfast.
Circle whether each one is measured in hours or in days.

1

whole school assembly

hours

days

2

the sports carnival

hours

days

3

a night's sleep

hours

days

4

school camp

hours

days

Write one thing you do that lasts about an hour.

**One day is 24 hours. Breakfast, then breakfast again, is a whole day.
Circle more than a day or less than a day for each one.**

1

whole school assembly

more than a day

less than a day

2

school camp

more than a day

less than a day

3

the school holidays

more than a day

less than a day

4

a drive to the country

more than a day

less than a day

Write one thing you have done that took more than a day.
