

A partner wants to ask: What is your favourite colour? Three people have answered already.

Circle the reason this question will not work with the yes and no trays.

There are more than two answers, so they will not fit in two trays.

Only three people have answered so far.

Circle the question that asks about colour and can be answered with yes or no.

Is your favourite colour blue?

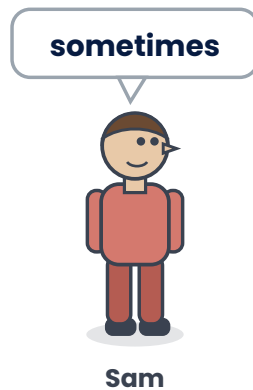

Which colour do you like best?

Write your partner's question again so it can only be answered yes or no.

Is your favourite colour _____ ?

You asked Sam your question. Sam said sometimes.

Circle what you should do.

Put the counter in the yes tray.

Put the counter in the no tray.

Ask again so the answer can only be yes or no.

Circle the question that will get Sam to say yes or no.

Do you ever ride your bike to school?

How do you get to school?

You asked Jo the same question. Jo said on Fridays. Circle what you should do.

Put one counter in each tray, because Friday is one day.

Ask Jo: do you ever ride your bike to school?

Leave Jo out of the record.

A partner asked these four people and put the counters in underneath.

Circle the person with too many counters. Put a tick on the person who was missed.

Ana

Ben

Cleo

Dev

Four people were asked. How many counters should there be?

A different partner asked six people. Do the same again.

Finn

Gus

Hana

Ivy

Jo

Kai

Say the rule out loud. Each person gives how many counters?

Five counters went into the trays. These are the people who were asked.

Work out how many counters there should be first.

Ana

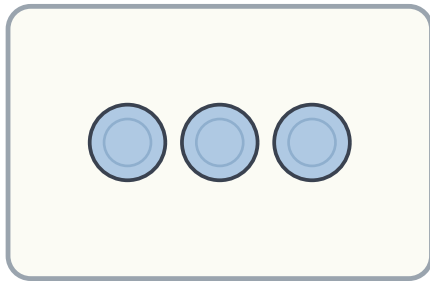

Ben

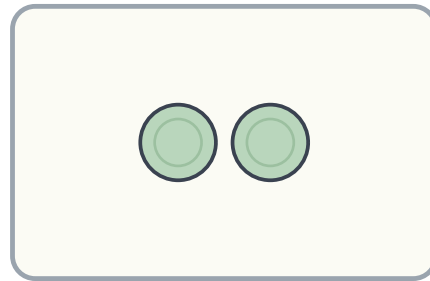

Cleo

Dev

yes

no

How many counters should there be?

Does the record match what happened? Circle yes or no.

yes

no

Cross out the counter that should not be there.

Say how you worked out how many there should be.
