

Someone laid the parts of the day out like this.

Circle the two that need to swap places.

morning afternoon lunchtime night-time

Put a tick on the row that is right.

morning lunchtime night-time afternoon

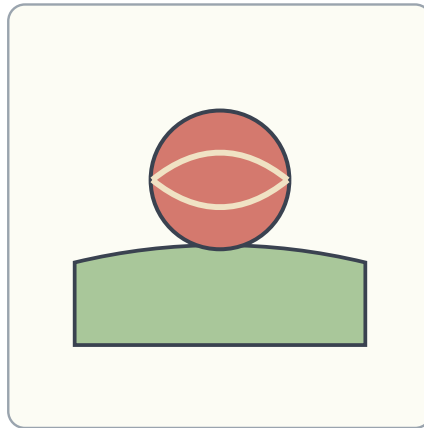

morning lunchtime afternoon night-time

lunchtime morning afternoon night-time

Say how you know the parts of the day always come in that same order.

This picture could be morning or afternoon.

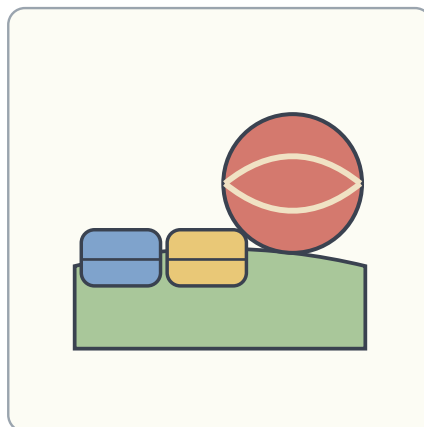

Circle what would help you decide.

Something else in the picture that only happens at one time of day.

Asking somebody which one they like better.

Here is the same place a moment later.

Circle the thing in this picture that tells you when it is. Then circle the part of the day it belongs to.

morning

lunchtime

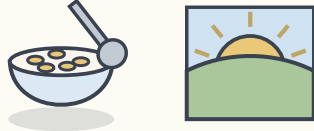

afternoon

night-time

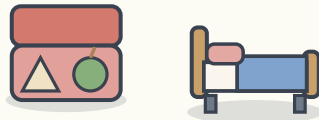

A partner sorted these pictures.

Circle the picture that is in the wrong place, then join it to the part of the day it belongs to.

morning

lunchtime

afternoon

night-time

Say one thing in that picture that shows it cannot be lunchtime.

This partner made two mistakes.

Circle both pictures that are in the wrong place, then join each one to where it belongs.

morning

lunchtime

afternoon

night-time

For each one you moved, say the thing in the picture that proves it.
