

Put a tick on every question that can be answered with yes or no.

Five of them can.

Do you have a dog?

What is your favourite food?

Did you walk to school today?

How old is your brother?

Are you wearing shoes?

Which sport do you like best?

Can you ride a bike?

Where do you live?

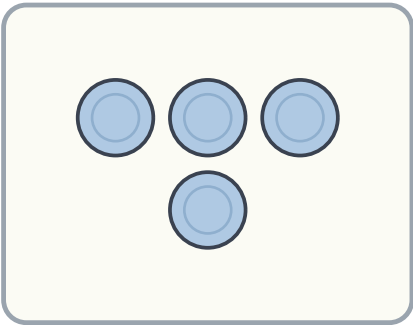

Do you like apples?

What did you have for lunch?

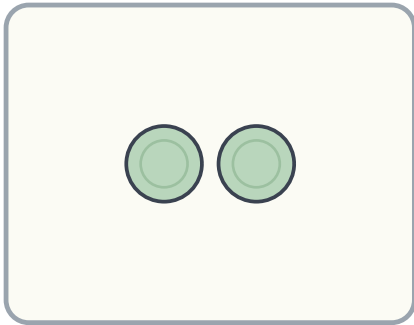

The other five have too many answers to fit in two trays.

Six people were asked. Here is the record.

Write how many in each space.

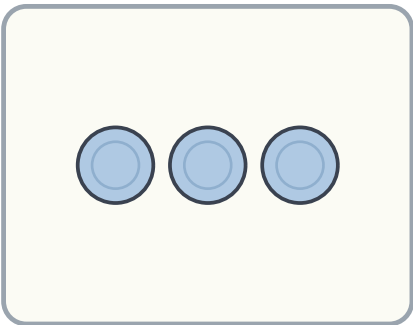

yes

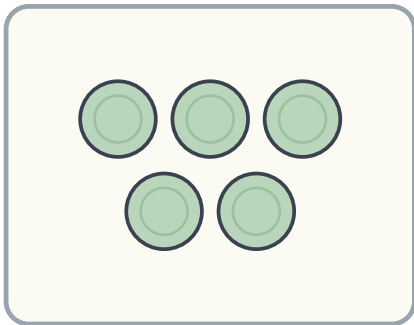

no

_____ said yes
_____ said no
_____ people were asked

yes

no

Circle the tray with more. How many more? Write it beside the tray.

Each person gives one counter.

In every row, circle the person who has not been asked yet.

Ana

Ben

Cleo

Dev

Eli

Finn

Gus

Hana

Ivy

Jo

Kai

Lin

Mo

Nia

Oli

Pia

Raf

In the last row, how many counters are in the trays so far?

Each pair asks about the same thing. Circle the question you could ask with the trays.

One of each pair has too many answers.

Do you have a cat?

What pets do you have?

Which sport do you like best?

Do you like swimming?

Are you wearing a jumper?

What are you wearing today?

What did you have for breakfast?

Did you have breakfast today?

Do you have a brother?

How many brothers do you have?

Read the one you circled out loud. Does it only have two answers?
