

Each display shows what one class answered.

Circle the row with more. Write how many are in each row.

Do you have a pet at home?

yes  _____

no  _____

Did you walk to school today?

yes  _____

no  _____

Do you like apples?

yes  _____

no  _____

Can you swim?

yes  _____

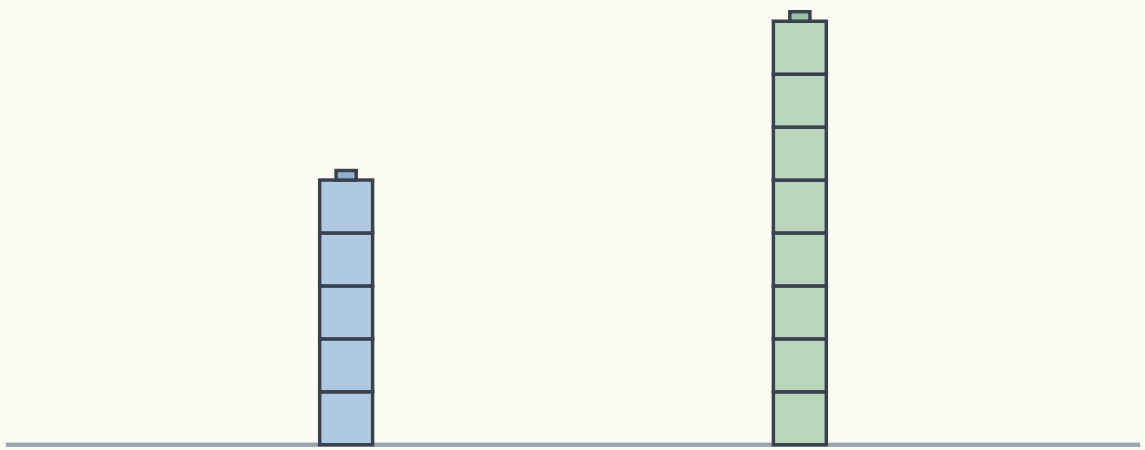

no  _____

One display has the same number in both rows. Circle neither row in that one.

The same answers, built into towers of cubes.

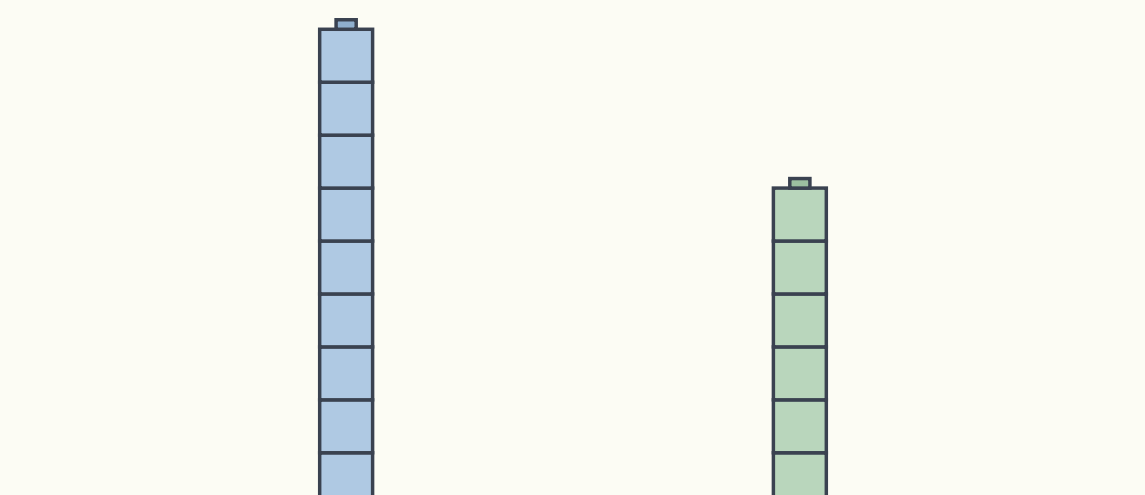

Circle the taller tower. Write how many cubes are in each one.

Do you have a brother?

yesno

Can you swim?

yesno

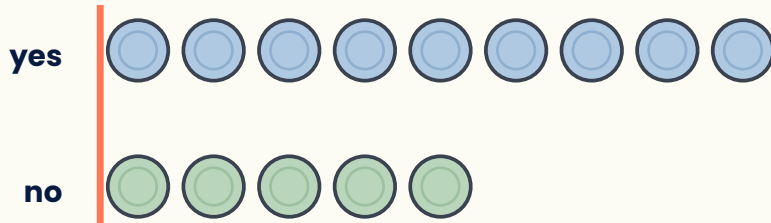

Both towers stand on the table, so their heights can be compared.

Consolidating

Circle the sentence that is true about each display.

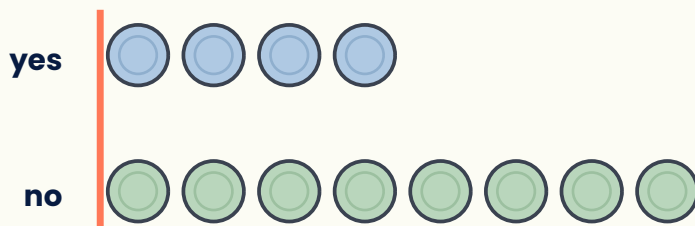

Do you have a cat?

More people have a cat than do not.

Fewer people have a cat than do not.

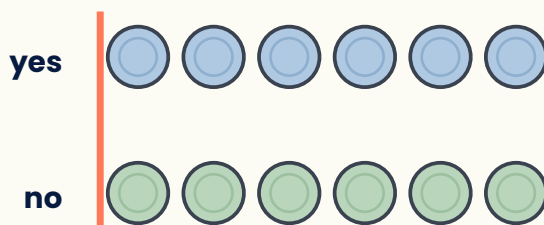

Did you have breakfast today?

Fewer people had breakfast than did not.

More people had breakfast than did not.

Are you wearing a jumper?

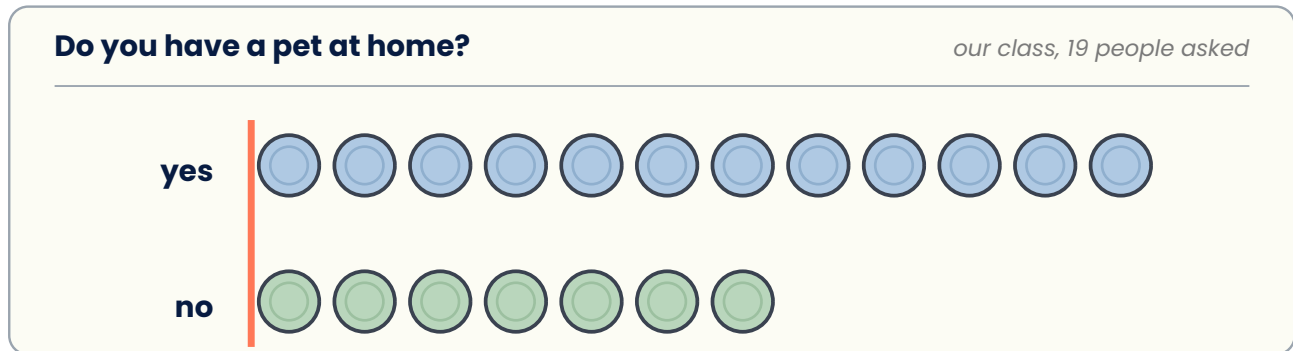

The same number of people are wearing a jumper as are not.

More people are wearing a jumper than are not.

Every display was built to answer a question.

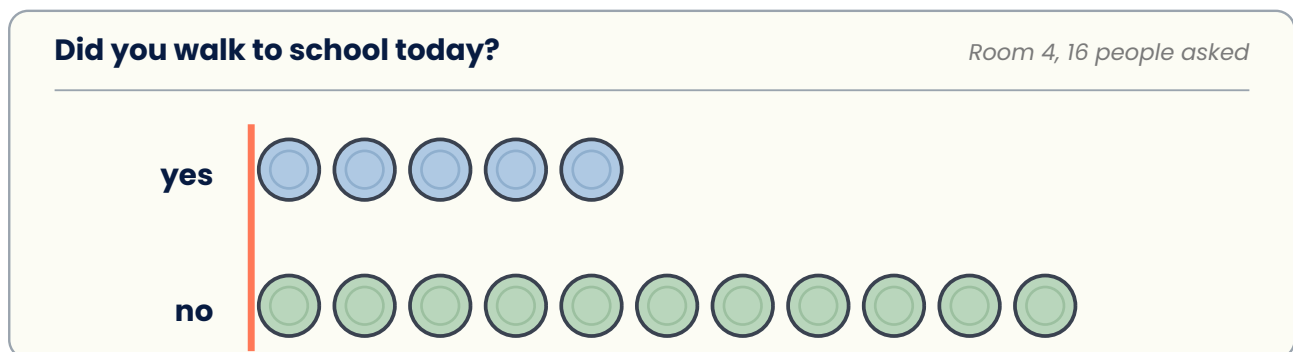

Circle the answer to the question at the top of each display.

More people in our class have a pet than do not.

More people in our class do not have a pet than do.

Everybody in our class has a pet.

More people in Room 4 walked to school than did not.

Fewer people in Room 4 walked to school than did not.

Nobody in Room 4 walked to school.
